

## Mitchell Photography Club Inc August 2009 Newsletter

Whilst Euan is having a well earned break (yes even retirees need a break – editor) and for environmental reasons the newsletter will be somewhat shorter and not up to Euan's high standard.

At the July meeting, Bob Tomkins gave an absorbing talk on and showed slides of Antarctica. I think we all appreciate the difficulty with taking film images under extreme conditions and are thankful that with digital cameras we can simply retake an image if necessary. Congratulations to Bob on his wonderful photography!

The theme was “open” and many interesting images were presented – congratulations to John Fitzherbert for his great image of pencil “sharpenings”. This image is on display at the Bendigo Bank Wallan.

What do you think of our new website? Please give us some feedback!

Maria Dee from UCANDOO (40 Sydney St, Kilmore) needs images for her students to paint/draw etc. If you have any suitable images please drop them in to her or email them to [ucandoartandcraft@bigpond.com](mailto:ucandoartandcraft@bigpond.com).

Remember to get out your cameras and take some images from around the shire and enter them into the 2009 Photographic Competition. Forms are available from the Mitchell Shire website and libraries. Remember to support our sponsors as they have supported us!

**Please let us have your suggestions for discussions and/or workshops – would anyone like a workshop on mat cutting? (talk to a committee members or send an email to [howard38@hotmail.com](mailto:howard38@hotmail.com)).**

Remember to get your camera out as often as possible!

Cheers

Howard

**Next meeting     19<sup>th</sup> August**

**Subject             Landscape photography with Greg Looker**

**Theme                Flame (please bring files of images for our website)**

Tip of the Month (from Nicki)

JPEG stands for Joint Photographic Experts Group

Maybe one day we can call ourselves Mitchell JPEG ???

CPL Services is a high quality professional digital photographic lab. We cater for the high volume professional photographer, design studio, graphic designer, seasonal photographer, students and amateurs alike.
